SRI SARADA COLLEGE OF EDUCATION (AUTONOMOUS), SALEM -16

RALLY ON PROTECTION OF FLORA AND FAUNA

Date: 07.10.2022

Venue: Zoological Park, Kuruvampatti, Salem-08

Organizer: Sri Sarada College of Education (Autonomous), Fairlands, Salem-16

Beneficiaries : 34 participants of Government Higher Secondary School, Kuruvampatti

Theme: Recovering species for ecosystem restoration for the year 2022

No of Students: 54

Every year, India observes National Wildlife Week from October 2 through October 8. The aim of this week is to safeguard and preserve India's flora and fauna. Wildlife Week was first conceived in 1952, with the long-term objective of preserving the lives of animal species that are endangered and threatened. On October 7, 2022, B.Ed and M.Ed- second-year students were taken to Zoological Park, Kuruvampatti, Salem to conduct a rally on the Theme "Recovering species for ecosystem restoration for the year 2022" and to create awareness about conserving the wildlife of our earth among Government Higher Secondary School, Kuruvampatti. Authorities of the Zoological Park and the inspector in charge, Mr. S. Umamathi, commenced the activity and appreciated the students for their active participation. Apart from the students of Sri Sarada College of Education, 32 students from the Government Higher Secondary School, Kuruvampatti gracefully took part in the rally. At last, a speech was delivered on the topic, "The importance of conserving wildlife on our earth" by Mrs. S. Umamathi, the head and in charge officer of the zoo and N.T. Roshini, B.Ed I year and a vote of thanks was given by R. Ezhilarasi, M.Ed II year. Through the wildlife week celebration, the students learnt that any harm to the wilderness can pose a threat to the entire ecosystem and thus it is very crucial to preserve flora and fauna.

SALEM – 24.10.2019**

SRI SARADA COLLEGE OF EDUCATION (AUTONOMOUS), SALEM -16

PLANTING SAPLINGS

Date: 07.04.2018

Venue: G-2 NURSERY FARM

Organizer: Sri Sarada College of Education (Autonomous), Fairlands, Salem-16

Participants: 48 participants of B.Ed students

The best way to inspire a love for nature is to start teaching it at a young age. Our students and staff of the college went on a field trip to G2 nursery farm, Kannakurichi, Salem to help them plant the saplings of different varieties and observed the process of the herbal garden. The aim of the activity is to sensitize students with environmental ethics and conservation. Our students helped G-2 Nursery staff in planting saplings so as to internalise the message of going and growing life with green trees everywhere and raise awareness on the importance of trees and plants to their students in the near future. Our students also instructed about the significance of consuming organic products and leading an organic life to be protective from deadly diseases. As a result of the activity, our students gained knowledge on how to grow and maintain a garden. By having students learn every aspect of tree planting and care, from picking a species to putting it in the ground and everything in between, it becomes second nature to them. The planting initiative also assisted students in spreading awareness of the value of plants and trees in the global warming era. Teaching children about nature at an early age is the best approach to foster a love of the outdoors.
