Contributions
in the field of
Education

Three major projects have been undertaken with the financial assistance of UGC and One Major Research Project was carried out with the financial assistance of NCERT 1. "Empowerment of women with disabilities: Perspective and Intervention program" was the Major Project to study the problems of sensory disabled women in terms of Education, Employment, Health, Safety and Security and Family support. It gave a clear picture to U.G.C. regarding the conditions of women on the above aspects. The intervention programs for the same were developed in collaboration with Administrators, Special Educators, Rehabilitation workers, Doctors, Nurses, Police personnel, Lawyers and Social workers in the specially organised workshops. Again the above mentioned personnel were given orientation and training in order to enhance the life of women with sensory disabilities. The above major project contributed significantly to the society for the neglected population "Women with Sensory Disabled". 2. 'Developing module for teaching life skill to the disabled children' was the major work undertaken in which she prepared Life skill Module and suggested the activities to facilitate the teachers of Disabled children to teach Life Skills to the affected disabled children. 3. Designing Instructional Strategy for Blended Learning at B.Ed. Level was the major project undertaken with the financial assistance of UGC to access blended learning in education in connection with differentiated instruction. Differentiated instruction involves custom – designing instruction based on student needs. In most teacher education programs, it is often observed that some programs are undoubtedly better endowed than others in terms of curriculum offered, qualification and experience of the teachers and the availability of books and instructional technology materials. Teacher education system requires systemic reforms in teaching methodology of curricular areas and resources to improve the quality and efficiency of teaching – learning process. 4. A Study of Dyscalculic Primary School Children in Salem District and Evaluation of Applicability of Innovative Strategies as Remedial Measures was the major research undertaken from the financial assistance of NCERT to identify the children with Mathematical learning difficulties and developing instructional strategies for them. Significant math deficits have consequences on the management of everyday life as well as on the career prospects and promotion. Math learning difficulties manifest in a variety of ways. Numerous resources are available to assist to develop instructional modifications and accommodations and finding appropriate materials and resources. By meeting those needs the student will learn better and enhance strengths and minimizing deficits will increase his or her ability to learn. 5. With financial assistance of UGC English- Tamil lexicon was prepared in Education which is a significant contribution in the field of Education and for Tamil Language. 6. A Special library for Visually impaired under the Scheme of HEPSN (Higher Education for persons with special needs) which contains than 210 Braille Books, the necessary accessories like Braille typing machines, Braille Slate and Style, Tape Recorder, Talking computer with scanner and Jaws etc., for the use of Visually impaired teacher Trainees who pursue B.Ed., and M.Ed., course which is a model for other institutions. 7. A Peer Reviewed Quarterly Research Journal "Sri Sarada Frontiers of Knowledge" with ISSN no 2277-3398 with the approval of RNI is being published by our institution to disseminate the findings of quality researches and thrust theories of education from the year 2012. 8. Several Disability Awareness programme in schools and Colleges were organised with the financial assistance of UGC (HEPSN), due to which huge number of teachers in both schools and colleges were made aware of the disability and their responsibility in including them in Schools and Colleges teacher.
